95 — Mysore City Municipal
President's Office dated the
13th July 1896

To,

The Secretary to the
Government of Mysore
Revenue and General Departments

Sir,

As cavity water has been
brought to the city of Mysore and
as there is an ample supply of water
in the Kunturkullu tank which has
hitherto been supplying it to the
the board is of opinion that phos-
phates should be more freely distrib-
uted to the people to take advantage of
this and with that view it is
proposed to reduce the present
rates. Now there are 600000 at 25-12
per year for one inch, 1/2 per
per year for 1/2 inch, 1/4 per
considered to be too high for the
people to pay. Therefore the board
has resolved that the rates be reduced

to 12 Rs for 1 inch pipes with 1 inch laps,
9 Rs for 1 inch pipes with
1/2 inch laps and 6 Rs for 1/2 inch pipes
for ^{with} 1/2 inch laps the persons that apply
for the pipes paying as now the cost
of laying them. A copy of the boards
resolution is herewith submitted.

Sanction is solicited to give effect to
it from 1896/97.

I have the honor to be

Sir,

your most obedient servant

W. S. S. S. S. S.

President of the
Muzore City Municipality

W.S.S.

Proceedings of the ordinary meeting of
municipal commissioners for the city of
Mysore, held in the Town Hall at 8 a.m. on
Saturday the 27th June 1896.

x x x x x x

III Read the proposal by Mr. M. V. Kalyā-
Krushnā Municipal Commissioner for
the Channarayana Division that the
rate of water tax on 1" and 1/2" house service
pipes be reduced from Rs 25 and 15 to
Rs 8 and 5 respectively to induce
people to get by house connections.
Having water has been brought to the
city.

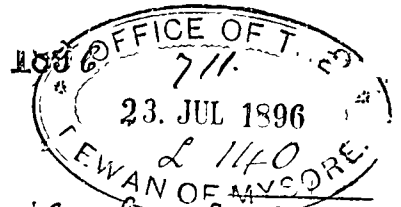

Resolved that the following be
adopted from 1.6.1896 viz
12 Rs per year for a house connection of
1 inch dia with 1 inch dia
1/2 inch dia for a house connection of
1 inch dia with 1/2 inch dia
6 Rs per year for a house connection of
1/2 inch dia with 1/2 inch dia

OFFICE OF SANITARY ENGINEER WITH
THE GOVERNMENT OF MYSORE.

DATED BANGALORE, THE 9th January 1897
19th

From

THE SANITARY ENGINEER WITH THE
GOVERNMENT OF MYSORE.

To The Secretary to the Government of Mysore,
Revenue and General Departments.

Through: The Chief Engineer (Bangalore.)
of Mysore

Sir,

Referring to letter no: 20 dated 1st July, 896
from Deputy Commissioner Mysore, submitting
for orders Proceedings of the Municipal Com:
missioners of Mysore under date 24th June, pro:
posing the reduction of the annual water-tax
on House Connections on the grounds that since
the introduction of the Canary water there
is ample supply of water in the Hukarimalli
tank, I have the honor to observe that the
question of the multiplication of House Taps
has a more intimate connection with the
size of the Street pipes than on the quantity

water in

2. The System of pipes in My Sona has calculated to deliver 20 gallons of water per head in 24 hours. Each House connection is a source of undetectable waste and if they are multiplied in a street irrespective of the carrying capacity of the water main the result will be that only a few taps will deliver water at the same time.

3. The quantity of water in the Kh: :hanuli tank is also not a factor in the supply of the town, as the whole town will in future be supplied with filtered Cauvery water and such water cannot be de: :ivered at less cost than the present charge.

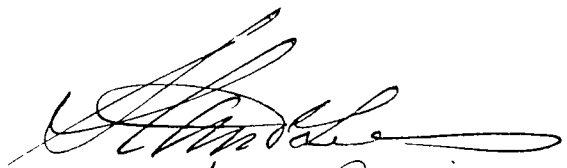

4. Under these circumstances it is not desirable to lower the charge, since such a step will lead to an undue in: :crease in the number of House Services and the failure of a full supply at the street

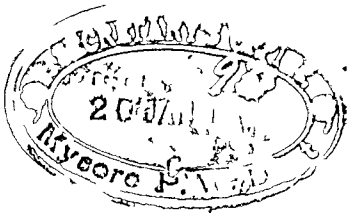

5. The above is in reply to a D. & Communication from Mr. Assistant K. Chandy in which he states that he has been directed to obtain an expression of my views.

I have the honor to be
Sir,

Your most obedient Servant
